## March 0150-0004-0500 Centrifugal Magnetic Drive pump

Item#: 0150-0004-0500 | Model#: 0150-0004-0500 Series#: LC-5C-MD

**Description:**

March 0150-0004-0500 115V LC-5C-MD Magnetic Drive Centrifugal Chemical Pump. 14.5 GPM (60Hz)/14.5 GPM (50Hz) Max Flow, 27 FT (60Hz)/19.6 FT (50Hz) Max Head, .125 HP

Price: USD ~~\$1522<sup>00</sup>~~ **\$1085<sup>19</sup>**[Buy Now](#)

### Technical Specification

**Series Data**

|                        |                                                                                                                                                               |

| Series                 | 5                                                                                                                                                             |
| Max Flow Rate - 50Hz   | 14.5 GPM (54.8 LPM)                                                                                                                                           |
| Max Flow Rate - 60Hz   | 14.5 GPM (54.9 LPM)                                                                                                                                           |
| Max Head - 50Hz        | 19.6 FT (6 M)                                                                                                                                                 |
| Max Head - 60Hz        | 27 FT (8.2 M)                                                                                                                                                 |
| Power - 50Hz           | .125 HP (.093 KW)                                                                                                                                             |
| Power - 60Hz           | .125 HP (.093 KW)                                                                                                                                             |
| Electrical Voltage     | 115V                                                                                                                                                          |
| Electrical Amp         | 1.6A(60Hz)/1.2A(50Hz)                                                                                                                                         |
| Submersible            | Yes                                                                                                                                                           |
| Inlet                  | 1" FPT                                                                                                                                                        |
| Outlet                 | 1/2" MPT                                                                                                                                                      |
| Wet End                | Polypropylene (Front and Rear Housing, Impeller), Buna N (O-Ring), 316 Stainless Steel (Shaft, Cooling Tube), Ceramic (Shaft, Thrust Washers), Ceramic Magnet |
| Max Liquid Temperature | 130 °F (54 °C)                                                                                                                                                |
| Uses                   | Submersible or Open Air                                                                                                                                       |

**Product Dimensions**

|        |                    |
|--------|--------------------|
| Weight | 17.70 lb           |
| Width  | 143.00 mm, 5.63 in |
| Height | 181.36 mm, 7.14 in |
| Length | 250.19 mm, 9.85 in |
